Mayur Waghachaude

Senior Android Developer | Kotlin | Flutter | 8+ Years Experience

8237322043/8459311126 | mayurwaghchaude@gmail.com | Mumbai, Maharashtra 401303

Professional Summary

Senior Android Developer with 8+ years of experience building scalable, high-performance mobile applications using Kotlin, Java, and Flutter. Proven track record of delivering apps with millions of users, improving performance, and reducing crashes. Strong expertise in MVVM architecture, REST API integration, and mobile app optimization. Experienced in Agile development, mentoring teams, and delivering production-ready applications.

Core Competencies

Programming Languages: Kotlin, Java, Dart.
Android Development: Android SDK, Object-Oriented Programming (OOP), XML, Jetpack Compose, Jetpack Components, Android Architecture Components, Play Store Deployment.
Flutter / Cross-Platform Development: BLoC, Equatable, Dio (Networking), GoRouter (Navigation).
Architecture & Design Patterns: MVVM, MVP, MVC, Clean Architecture.
Android Jetpack & Libraries: LiveData, ViewModel, Room, WorkManager, Data Binding, Kotlin Coroutines.
Networking & APIs: RESTful APIs, API Integration, Retrofit, Google APIs.
Dependency Injection: Hilt, Koin, Get it.
Backend & Cloud: Firebase
Testing & Quality Assurance: Unit Testing, Performance Optimization, Accessibility Implementation
Tools & DevOps: Android Studio, Gradle, Git, Jenkins, CI/CD, JIRA
Methodologies: Agile, Scrum
Soft Skills: Leadership, Team Collaboration, Cross-Functional Collaboration, Mentoring, Code Review, Problem Solving, Technical Documentation
Languages: English, Hindi, Marathi.

Key Achievements

- Contributed to development of Android application with **50M+ downloads and 4★ Play Store rating**
- Delivered multiple mobile applications with **100K+ downloads and high user ratings (4+ stars)**
- Reduced application crash rates and improved stability through performance optimization and debugging
- Contributed to **code reviews and mentored junior developers**, improving code quality and team productivity
- Experience in **Play Store deployment, app release management, and post-launch support**
- Worked in **Agile/Scrum environments**, contributing to sprint planning and timely delivery

Professional Experience

Software Engineer — May 2022 – Present

Enfec Solutions PVT LTD – Hyderabad

- Developed and maintained scalable Android and Flutter applications using Kotlin, Java, and Dart
- Reduced app crashes by **30-40%** and improved performance by **25%** through code optimization and debugging
- Integrated REST APIs and improved data synchronization across modules
- Participated in Agile processes including sprint planning, stand-ups, and retrospectives
- Mentored junior developers and conducted code reviews, improving team productivity
- Took ownership of **feature delivery and technical decisions** for critical modules

Android Developer March 2020 – April 2022

Nimap Infotech PVT LTD – Mumbai

- Built and delivered multiple Android applications using Kotlin and MVVM architecture
- Reduced app crashes by **20–30%**, improving user retention
- Improved app performance leading to **faster load times (~25%)**
- Collaborated with UI/UX teams to convert designs into responsive, user-friendly apps
- Improved app stability by fixing bugs and implementing enhancements
- Integrated third-party APIs and optimized app performance

Android Developer November 2017 – March 2020

Rajkamal Barscan Systems PVT LTD – Mumbai

- Developed Android applications across full lifecycle
- Improved code quality through **refactoring and modularization**
- Integrated third-party libraries and APIs to enhance functionality
- Improved application performance and stability through debugging and optimization
- Supported client requirements and post-launch maintenance

Education

Bachelor of Engineering in Computer Engineering
VIVA Institute of Technology – Virar | 2016

Diploma in Computer Engineering
VPM's Polytechnic Thane– Thane | 2013

Certifications

Android App Development
TryCatch Tech– Borivali | 2017

Projects

Visual Voicemail | T-Mobile | Tech: Kotlin, MVVM, REST APIs, Coroutines

- Contributed to an app with **50M+ downloads and 4★ rating**
- Developed UI components using Jetpack Compose for modern Android apps
- Developed features like voicemail transcription, multi-language translation, and custom greetings
- Improved app performance and reduced crashes for high-volume users

Gold For All | Augmont | Tech: Kotlin, Flutter, REST APIs

- Built fintech app with **100K+ downloads and 4.8★ rating**
- Developed secure modules for gold trading, wallet management, and transactions
- Implemented **payment gateway integration** and authentication systems

Examo | Catalyst | Tech: Kotlin, MVVM, APIs

- Developed e-learning platform with **100K+ downloads**
- Implemented live streaming, quizzes, offline downloads, and progress tracking
- Optimized video performance and reduced buffering issues

Cell site Readiness| T-Mobile | Tech: Flutter, Clean Architecture

- Developed enterprise app for **network testing and validation workflows**
- Built modules for real-time test reporting and automated notifications
- Integrated APIs for data synchronization and reporting
